

MF-210 Nuclear Safety Summit (NSS) -2016

The 2016 NSS was held in Washington DC. The aim being to preserve international standards of safety and storage for nuclear products.

For security, mandatory air corridors for the arrival of international VIP participants were established on approaches to Washington-Dulles airport. Corridors were 20 nm wide with a max altitude of 10,000 ft AGL. Military aircraft will operate surveillance patrols and reporting unverified aircraft to Dawson AAF Base.

Aircraft F15, F16, F18, P3 ,C130 and Chinook (Or appropriate aircraft)
